HON. JAMES BREATHIT'S.

Good Old Republican Christian County Will Furnish Kentucky's Next Second Officer.

FOR LIBUT. COVERNOR.

[REPUBLICAN BANNER.] In these terrible Democratic times the people of old Democratic Kentucky are turning from the party of free trade ideas, starvation wages and linglish doctrines and are knocking for admission into the household of Republicanism, that bulwark of American in lepemlence, protection and any good reason for casting their suffrage at the feet of that proud and haughty autocrat of the henery, thereby inviting idleness and Coxeyism when by their mere permission that pro dest bird of the air would Cotton Belt Route safely ferry them across these dangersandintotheland of plenty. Under circumstances such as these the voters of Kentucky see the impending danger of Democratic defeat in the next State election and even now have begun to look among their Republican triends for the most availing men to lead them out of darkness into light. From every nook and corner of the good old Commonwealth comes the name of Win. O. Bradley, Kentucky's next Governor. Then comes the querry: Who will run for Lieutenant Gov-

ernor? Of all easy questions this the easiest-Hon. James Breathitt, of Honkinsville. Ile is the son of John W. Breathitt, at present the Post-master of this city. who is a policitian of the first water. So on the outset Mr. Breathitt is of necessity a campaigner to the manor born. He was born in this county in the year 1852 and was graduated in law by the Cumberland University, of Lebanon, Tenn., in 1877. He immediately returned to this city and begun the practice of his profession. He was nt once elected City Attorney and continued in said office until 1881 and 1882, when he represented Christinn county in the State Legislature. In that body he was the undisputed leader of the Republican side of the House and was voted for by them for Speaker. He was recognized as one of the ublest, if not the ablest man in that body. It was the Hon. James Breathitt, of Christian county, who first introduced into that House a bill providing for an equilization of the school tax between the white and colored children of the State. The bill was rejected, however, simply because

it was introduced by a Republican and a similar bill, but one introduced by Clarence U. Mclilory, of Warrencounty, was passed in its stead. He was again elected to the Legislature for 1885.6 and was again the Republican caucus nominee for Speaker. From that time up to 1892 he was again City Attorney of Hopkinsville, ench time receiving an almost unanimous endorsement, and that, too, without him ever making a canvass for the office. As a lawyer, every department of the law considered, he is without an equal in Western Kentucky. He ls a student, a close pleader aud an eloquent advocate. As an orator he is without a superior in the State. A reporter of considerable reputation, who heard his oration at the unveiling of the Confederate Monument in this city, and on which occasion the silver-tongued Breckenridge also spoke, said: "Breathitt's oration on that occasion was one of the finest pieces of oratory I ever heard and, il he was not a Republican, it would be the greatest speech of the day," earnest, energetic, pushing and tireless, as a true man to principle and

Col. Robert G. Ingersoll may be uunsond theologically, but his political expressions are worthy of careful consideration. On one occasion, while only \$1.25, in admaking a speech a man in the audience yelled out: "What is the matter with dropped his line of argument, turned towards his interrogator, and replied to the surgeon's kulfe, in consequence as follows:

"The atmosphere that surrounds Democracy is full of noxious vapors that breed moral pestilence and death. The sun never shines through it; vice seeks its shadow, and corruption grows lustily under its influence. Springs of purity me never found in Democracy. Its waters are torpid, lifeless-covered with slime, with which stagnant pools and moveless waters that always offend the eye of man. The soil in which Democracy was cultivated has failed to yield harvests of value to the nation, but has given worthless weeds and briers.

"Democracy has no love of country; believes in states instead of nations; drives loyalty from its doors and wellcomes in treason to its habitation; holds the deeds of our soldiers and sailors as naught; strives to blacken the names of our heroes; weeps over the lost cause; hates the blue and loves the gray; stabs loyalty in the back; binds up the wounds of trenson, and speaks words of hope and comfort to its devotees; applands when helpless blacks are stricken down in the South, and caresses the hund red with innocent bloo l; denies the rights of American citizens to make homes business enterprise. THREE AND THREE.

BT THE LATE JUDGE OAYLORD J. CLARKE. Three on the tide of the hurrying years, Feeling the touch of the hand of Time, Gladdened by hopes and saddened by fears, And hearing, while eyelids grow heavy with tesrs, The bells of memory chime.

Three of us coming the lessons of life, Learning the wisdom their maxima teach, Viewing earth's pleasure and struggts and

strife,
An earnest man and a loving wife,
And a shild with questioning speech. Three in the shade of the blossoming trees, Watching the gladsome spring as she sets The robe of May with anemones And delicate harevells, swayed by the breeze That kisses the violsts.

Three where the souls of the weary find ealm, Lulled hy the sound of some Heavenly hymn, Where harp notes wind thro' the groves of

paim
And angel voices hiend in the pealm
From the choir of Seraphim. Three in that land where the shadows of night Chill not the flowers, nor darken the trees, and where, far below to their widening sight. The stars are spread out like islands of light That slumber on tranquil seas.

Three where the roses and hyacinth bells Bend over sweams that immortal flow;
Where the illy its love in fragrance toils,
And the amaranth bows with the asphodels
When colsected breezes blow.

Three where no grief the blest spirit annoys, Three on whose cheeks are tracas of tears:
Who moura midst their mirth, and lament
midst their joys,
For the sliken-tressed girl and the beautiful

boys Who left them in tender years. Three in earth's varying gladness and gloom,
Three in the hilss of the peaceful skies,
Three planting flowers on a decelate tomb,
And three in the bowers of unfading bloom
In the valleys of Paradlee.

Three midst the scenes of man's passion an atrife,
Three with the scource of all light and love, Three fondly hoping through Him who died— The Lowly, the Gulleless, the Crucified— That there may be six above.

HIS LADY COMPANION.

Story of a Cold Ride and a Romantio Ending I had just finished a hearty supper and had ordered my horse brought np to the door when the landlord of tha country inn entered the room, rubbing his hands in an awkward manner, as if

he did not know just what to say.
Still continuing his rubbing, a thing which always exasperated me, he replied to my exclamation by saying:

sir, considering the state of the roads,

"Say on--what is lt?" "Thore is a lady here to-night who desperately anxious to get to Brenton by to-morrow morning.

"That'e the point, sirt ehe can't. All my horses are atorm-ataid somewhere in the country, and you can't hire a team hereabouts, as you may know."
"How did the lady get here, in Heaven's name?"

"She came just before you did. sir. with one horse. 'Driving, herself?" "Not a young feltow drove for herailly-looking chap." "As he brought her here it seeme to me he might drive her there—eh?"

"Well, so he might, sir, but he's almost killed the horse, and it would finish it for certain to send it out again on these roads. It wouldn't be human, would it?" I am not naturally disobliging, but to be asked to take a lady in your

THE Democratic Cougressional Primary Election is called for August 4. The object in putting it of so long is doubtless in the hope that something will happen by that time to raise the llugging hopes of the boys in the trenches, for the politicians know that il the Primary should come off now there would scurcely be a corporal's guard take part. The Primary is altogether superfluous, however. masmuch us the next Representative from this District will be nominated at Lebauan June 27, and his name is John W. Lewis.

The most important recent event in the history of Hurtford from a business standpoint is the origanzation of the Hartford Connaercial Club. Such an organization should long ago have been organized and in operation. Properly managed this body will be worth hundreds and thousands of dollars to the town. The proposition to maeadamize the streets of the town is an exceedingly good one. Now, that the courts are insisting on euloreing the law in requiring imprisoaments and fines in default to be paid in work, may give its attention.

DECORATION DAY.

Preston Morton Post G. A. R Holds a Very Impressive Memorial Service.

The Graves of Heroes Strewn With Flowers--Some Good Speeches.

Under the auspicles of Preston Mor ton Post G. A. R., a most successful Decoration Day Service was held at Shinkle Chapel Church, seven miles north of Hartford on Wednesday.

A large crowd, perhaps five hundred or six hundred people gathered early on the beautiful church grounds to witness the exercises. At 100'clock Rev. J. A. Bennett called the meeting to order and led in prayer, after which Rev. J. B. Perryman delivered the Welcome Address to the delight of his hearers. Prof. James Ellis and choir delivered some very fine music prepared for the occasion.

The next part of the regular program was the funeral sermon of Mrs. Elizabeth Carter by Rev. J A. Bennett, which was deterred to the alternoon and Rev. D. F. Kerr delivered the oration of the day. He is a pleasing and powerful speaker. His thoughts seemed to flow with the utmost ease and rapidity and his pictures of the Nation's history and struggles was able and pleasing. The large nudieuce join in congratulating the management on securing such an able speaker.

The Hickory Hill Cornet Band had been engaged to render the martial music tor the occasion and they did their part to the satisfaction of all.

After the orations the old soldiers and a large part of the crowd repaired to the graveyard about a mile away and there the Decoration Service was performed with great solemnity and effect.

Some fine music both vocal and ustrument was rendered by the band and the choir and the old soldiers headed by Color Sergeant Thomas Greer and Acting Commander J. L. Carson merched slowly around the graves of the departed heroes and deposited there the beautiful flowers n token of the esteem and honor in which the memories of the departed are held by the living. It was a scene Mr. II. II. Scott, at a late meeting of sadly beautiful. Time is fast thinning the ranks of the living and adding to the ranks of the dead and before another Decoration Day no doubt some who Wednesday scattered flowers will be asleep and over their graves the remaining comrades will perform the beautiful ceremony and shed a patriot's tear.

The music at the graves was highly dinner more.

When the dinner hour was over the band dispensed some sweet music and the Post held a short business meet-Rev. J. A. Bennett preached the funeral sermon of Mrs. Elizabeth Carter, a woman of more than ordinary ability, who was a nurse and spy during Gen, Grant. She died at the Ahnsthe tuneral was deferred until this time. Rev. Bennett preached a very tonching sermon, telling of the many hardships through which the unfortunate heroiue had passed.

Acting Commander Carson called on the committees for reports and after some other business was transacted the crowd was dismissed. On call it was found that before coming to Shinkle Chapel that morning the old soldiers had decorated the graves of no less than ninety-six comrades in the various burying grounds throughout the county,

The crowd then dispersed after 'Home, Sweet Home," by the Band, leaving pleasant memories of a most joyous day.

NOTES.

The Committee on Arrangements composed of Messrs. Henry C. Shaver, Jesse Shaver, Victor M Stewart and the neighbors generally descrive the highest praise for their excellent work. Nothing was left undone that would add to the interest and pleasure of the occasion.

Quite a number of the boys who wore the gray were present and enjoyed the day to the fullest extent, They expressed themselves as delighted with the affair throughout.

The Hartford Colored Cornet Band was out in full force and made some good music.

Free-Trade and Farming [AMIERICAN ECONOMIST.] A paragraph appeared in the Lon don daily press a few months ago stating that the farmers had given their laborers notice that henceforth their wages would be reduced by 2 shillings (50 ceats) per week. CLEVER SWINDLER

Two Worthiess Lumps Shoved Off for Twelve Thousand Dollars.

in" by a "Representative" of fler Nephew in the West - Monratul Clioux of an Expected Pleasure.

Witheyes brimful of happy anticlpatioa, an aged woman presented the following extract from Smalley's two "kiugs" of bright metal to the chief weigher at the mint. She believed that the two lumps of metal were gold worth thirty thousand dollars, and when informed that they were but copper and zinc, worth two or three dollars, she turned away with a heavy heart and sought the train to bear her back to her home lu Jackson, Mich. She had pald tweive thousand dollars for the stuff, and had journeyed all the way east to realize upon it.

The story of the unfortunate womaa's loss was told to the raint officials She was Mrs. Harriet Morgan, who resides in Jackson, and with her were her soa-in-law, Charles Helleg, and Dr. Blanchard, the family physicina. Some thirteen years ago Mrs. Morgaa, who is quite wealthy, had advanced to a aephew six thousand dollars to start a buslaess. He wus profuse in his expressions of gratitude, and promised that, as buslaess prospered with him, he would return the loan with ample interest, The aephew went away, and his auat heard nothing of him until recently. She had about abandoaed hope of securing the return of her loan, when one day a stranger came to her with the announcement that he represented her nephew. The latter had prospered well in gold miniag, and, as an evidence of his success, had sent her two gold bricks, or "kings." These weighed fully eighty-five pounds and were Overdrafts, secured worth thirty thousand dollars. These the nephew desired to present to his aunt in return for her loan and another small paymeat. Mrs. Morgan, delighted, paid the stranger six thousand dollars and received the "kings," which she guarded carefully. The trip to the mint was planned, Dr. Blanchard and Mr. Helleg accompanying her to carry and properly guard the preclous lumps. The trlo reached the city on a Sunday, and waited with feverish impatience for the coming of the morning, when

the miat doors should open. Buslness for the day had scarce begun when they walked into the moneymuking establishment with happy faces. The metal was la conlead form, and throughout all the journey the two naen had guarded the satchels containing the "kings" with watchful care and anxiety, never permitting them out of their sight for a moment. The "klugs" were passed over to the chief weigher, and the trio sat waiting the re-Closing song--"When the s'ia lows sult of his examination. In a few momeats he aanouaced, in crushing

College Happenings.

Ever since its establishment, fourteen years ago, Hartford College has been recognized as one of the leading educational institutions in this part of the State, and the year just closing has added new laurels to her crown of successes. Though the year has been a pleasant and successful one, like all things of an earthly nature, it must close, but we feel assured that the experiences of the past year have taught us lessons that will prove of inestimable value in after life. The time has seemed short since work began the 26th of fast August, but while it has been passing so swittly we have been storing our minds with valuable truths that will better prepare us to discharge the duties of after life.

We view with regret whatever mistakes we have made, but look with pride on the many victories achieved in the several fields of labor in which we have engaged. Our mistakes will be useful in enabling us to avoid similar ones in the future and our victories but so many guide-posts along the road of future success.

The exercises this week have been very interessing indeed and have been attended by large numbers.

We are glad to have the following former pupils of the school with us this week: H. L. White, V. F. Milfer, C. J. Dunn, Wallace Stewart, Kate Jones, Dania Carter, Mattie Lindley, ard, Artie Bennett, Mabel Kimbley.

A GALA WEEK.

Fourteenth Annual Commencement of Hartford College.

A Very Marked Success--Fine Entertainments and

This has indeed been a gala week for Haitford. The Commencement Week with the College always brings a large crowd to the city, and our streets are thronged with visitors through the whole time. And besides this the exercises are a much appreciated treat to our people who are lovers of that which is beautiful and true. The program has been well rendered and very interesting from the beginning. All former efforts of the teachers and pupils have been excelled in the abundant success of this week. Besides the regular class examina-

tions during the week the order has been as follows: MUSICALE.

Monday night the Music Class, in charge of Miss Maggie Nall gave a Recital, which for good selection, management and rendition is scarcely ever excelled.

The medal for the best instrumental solo was awarded to Miss Annie L. Fogle, and for best class advancement to Miss Carrie Wœrner. The judges were Mrs. Eugene Nall, Owensboro; Miss Ella McBeath, Leitchfield, and Miss Mary Lawrence, Louisville. Hon. J. E. Rowe, in a few eloquent remarks, presented the prizes.

PRIMARY DEPARTMENT. Tuesday afternoon at 2 o'clock the Primary Department, in charge of Miss Katie Coombes, gave an entertainment which delighted the large audience in attendance, and attested again the superior ability of this excellent young teacher.

The medal offered hy Miss Coombes for best work in spelling was won by Miss Annie Collins and was presented Abbie and Minnie Bell, Eugenia How- hy Prof. H. K. Taylor of Louisville, in an appropriate little speech.

CLASS IN LITERATURE. Tuesday night the class in Literature, in charge of Prof. Wm. Foster, delivered orations at Court Hall to the delight of the large audience who went away unable to determine who deserved first honors. The work of both teacher and pupils during the year has been very fine.

The program, which was interspersed with music was as follows: in the Land of Scott, Fannie Render. The Progress of Science, R. L. Power. The Zenith of the Evening Star, Mamee Ross. ESCAPING FROM LIBBY PRISON.

Two instances of Coolness and Bravery by Yankee Prisoners.

[TOLEDO BLADE.] The contederates in command at Libby prison would not permit uniforms to be sent through in boxes to the prisoners, but so long as the boxes were received they would accept citizens' clothes. In this way Lieut. Kupp, of Berks county, Pennsylvania, received a suit of hutternut colored clothes. He was captured at Gettyshurg, and after six months confinement his uniform was worn to rags, so that the garments sent from home were most welcome. Being a tall, lank young man, as soon as he put on the clothes he was transformed into a lean, gawky North Carolinian, and was joked by his comrades on his resemblance to a confederate, a fact he was not slow to avail himself. It was not unusual for confederate officers and citizens to visit the prison with the guards. One morning, to the inexplicable amazement of his comrades who saw the act, Kupp fell in behind the guards at roll call, and work this vein, but will continue cooly walked down to the office of to go down until they strike the next the commandant, Major Turner. He vein, which is supposed to be about permitted the guard of pass out, and four feet. when Major Turner, a smooth faced martinet, appeared from his private office and asked: "Wellsir, who the devil are you?" Kupp gave a fictitious name and added:

'I'm from No'th Killinery." "D-n you! what do you want here?" demanded Major Turner. "Wa'al," drawled Kupp, as he thoughtfully stroked his chin. "Bein" in Richmond, I thought I'd come down and see the Yanks."

"D-n your impudence!" roared Turner. "If you want to see the Yauks go to the front! now get out of here as quick as God'll let you, or I'll kick you out."

"No, you won't kick me," sald Kupp, drawing himself up, "but if you are so particular about your darned old prison and your cussed yanks, keep 'em and go to h-ll!" And thereupon he walked coolly out.

Most men, on finding themselves thus unexpectedly free would have made what is called a bee line for liherty, but not so with Kupp, Having secured a piece of timber, he walked down before the prison, on the other side of Carey street, and there stood whittling, while he looked up at his astounded comrades. Finally he obeyed their gestures of warning and started off, and succeeded in coming through to "God's land," as we then called the North.

Another curious escape, requiring even more coolness and address, was that of an officer from Connecticut. Before the war he was a merchant tailor, and understood his trade thoroughly. He was in a hospital when one of the officers happening to learn of his skill asked him if he could razee a uniform made for a larger man so as to fit him. The Yankee said there would be no difficulty provided he was furnished with the necessay artleles i and was paid for his work. Confederate money then being plentiful, \$150 was advanced and the gray uniform originally made for an officer who had been killed at the front and who had no more use for it, was brought into the prison. The confederate officer was particularly anxious to have it done hy a certain day, as there was going to he a ball in the city, and he position of the party. It will no longer wished to appear at his best. The tailor assured him that he should not be disappointed. The owner of the clothes came frequently, in order to have them properly fitted, hut the tailor saw to it that no one garment was completed before the rest. In the north-east corner of the hospital there was a little apartment boarded off and known as the doctor's office, to which the prison physicians had access at all times. As soon as the tailor had the uniform completed he proceeded to try it on himself and as he was about the size of the man for whom it had altered, It fitted him like a glove. With this uniform on his back and the \$150 for fixing it going to happen when the bodies get over in his pocket, the Yankee went out of the hospital and advanced

without dificulty. Like Kupp, his boldness and address were requited with success, for he succeeded in coming through to our lines at Wil- Con. Nolson and Hts Good Old liamshurg.

Owensboro to purchase a new spring stock of goods. His husiness was of an entirely different nature.

Mr. Fred Lamastus, Victoria, was who is very sick.

A very serious accident happened just ahove this place on the C. O. & Yorktown. S. W. railroad Sunday which came very nearly ending the life of Mr. James Wehster, of Fordville. He with a number of companions were young ladies had a pair of dancing standing on the rear platform of a passenger train when he lost his halance and fell over backward on a trestle aeross a slough. The train was running about thirty miles an hour, hut his hack and shoulders struck first and the momentum was so great that he was thrown nearly ten feet. He was taken to Fordsville, where after a thorough examination it was found no bones were hroken. At last accounts he was doing fairly well.

Thompson, Pettitt & Co. began work on their new shaft last week, and struck a fine quality of block coal two feet thick at eighteen feet below the surface. They will not stop to

Democratic Pintform Making. [TOLEDO BLADE,]

Our Democratic friends are going to have a very rough time at their various party conventions this year to construct platforms that will not be laughed to scorn by even the intelligent members of their own party. It will not do to indorse the "Wilson bill," for everybody will desire to know which one of the five editions up to date, and possibly more to come vet, is meant by that ambiguous phrase. On the the tariff question they dare not indulge in glittering generalities. The split between the Randall Democrats, who favor moderate protection, and the Calhoun Democrats, of whom Wilson is the avowed leader in the House, will appear in the conventions and it will be a gigantic task to make a platform that will fit the ideas of all the voters who eall themselves Democrats.

Then there is going to be lots of trouble about Mr. Cleveland in the various State conventions. That obese gentleman is sensitive to his personality, and will expect "ringing" resolutions indorsing his superhuman wisdom, his superb statesmanship, and giving his administration unqualified support in all it has done, including the Hawaiian fiasco. And the obsequious federal office holders, who sneeze whenever Grover snuffs, will busy themselves to compass this end. They will be in evidence in the conventions, and there will be fun before the administration is endorsed as fully and unequivocally as Cleveland wishes it to be.

Then, there is the financial question. This has developed to a point where a straddle won't go in defining the do to declare in "favor of both gold and silver as money metals." Everybody, with few exceptions, agree to this. But the point is, are you in favor of the free and unlimited coinage of silver at a ratio of 16 to 1, when the market ratio is nearly twice as great? That is the issue the Democrats must meet and there will be a row in most of the conventions before the matter is settled.

There are minor points of difference among Democrats in every state, and they will also be bones of contention in the conventions. No wonder the wise heads of Democracy are shaking their heads and wondering what is together.

Virginian Family. Loyal Chilsen's Sacrifice for the Benefit His State's Repleted Treasury-His Children's Education Did Not,

However, Walt on Affluence In 1830 the treasury of Virginia was somewhat impoverished, and many loyal citizens aided the state to their own personal loss. Gen. Thomas Nelson was one of these, and his fortune was thereby so much impaired that his younger children experienced many privations. The author of the "Memolrs of William

were not permitted to endure. A tutor eousln taught them English and French. Susan, afterward Mrs. Francis Page, became very intimate with some of the refugees from St. Domingo, who fled to Yorktown in 1791. Association with them gave her fluent use of French conversation. Italian she learned from a female friend, and her acquaintance with English literature was cultivated by her brothers in her

youth and hy her husband later. She kept up her use of French so constantly that her children and the young servants around her became familiar enough with the sound to obey an order given in French as readily as in Euglish. She also frequently read aloud in good Euglish auy Italian or French book which struck her faney.

Loss of wealth never lessened the social distinction of the Nelsons, and Mrs. Page used to relate with great sprightliness some of the shifts to which she and her younger sister in town Sunday to see his mother, had been put in order to dress in a manner suitable to their society and her own prestige as the belle of

On one oceasion a grand ball was to be given at the "Raleigh tavern," Williamsburg. Neither of the slippers, and the family purse was empty. Long and auxious consultation failed to suggest any means to supply the deficiency. Affection and contrivance at last proved excellent handmaldens to necessity. "Mammy Nurse," the white housekeeper, had a sheep killed. The skin was tanned by "Uncle Cupid," the butler; dyed black by mainmy, and made into the eoveted slippers by "Uncle Paul," the plantation shoe-

Mrs. Commodore Decatur and Miss Dolly Payne-afterward the wife of President Madison-were amoug Mlss Susan Nelson's intimate friends. At a season of unusual festivity Mrs. Decatur complimented her on being always so well dressed -her wardrobe at the time being limited to two white gowns. One of these, freshly washed and ironed, was put on every day, and the toilet Miss Mecie Lamastus departed this completed by either a blue or pink sash-sald sashes having been provided by "Jim Possum," the negro fisherman, who devoted two whole days to the catching and selling of fish for the purpose of buying his "young mistis" her ribbons. -Youth's Companion.

Christian Endeavor Work. Much interest has centered in the Christian Endeavor work in Life Saving Stations, at the International Convention in Montreal, Canada, an advanced movement was made by adding the Light Houses and Light Ships to the work; also including the United Kingdom of Great Britaian in the field of operation. Men were chosen to represent England, Ireland, Scotland and Wales on the International Committee, which consists of representatives from every State and Province where life saving stations light houses and light ships are located Rev. S. Edward Young, Asbury Park, N. J. is Chalrman; Rev. J. Lester Wells, 188 Grand Street, Jersey City, N. J., is Secretary. have rescued more than a million people from slilpwreck. As the most of them are isolated from home and friends, it is highly fitting that world wide sympathy should be extended to them, also to the men connected with the light houses and right ships, upon

whom vessels freighted with precious lives depend for safety. Christian Endeavor Societies, located near stations or light houses are recommended to conduct appropriate services for the crews and also farnish comfort bags, books, mag cines papers, mits, mufflers, wri-tlets, socks, yarn caps and the like, for the comfort of surfmen. HOW IT WILL WORK.

Canadian Farmers Will Croft by the Wil-The Wilson bill epena one market to the producers of Caunda and gives them an equal share in all our trade. They pay no taxes in the United States, they live cheaper, pay lower wages and can usually sell for the same price or even less and make money.

Hitherto they, under the McKinley bill, have unide up what they did not pay in taxes on farms and plants in the United States by a protective tarlif at the border. We saw that our own farmers, our own workmen and our own manufacturers were given a fair show; that there who built up our towns, increated our judustries, cleared our lands. built our schoolhouses and churches and maintained them-that these were hat subjected to ruinous competition; rial development of the country was held for them. We all have to pay taxes and all have to do our due share toward belping to maintain law and order. Those who do these things should not be made to suffer for the benefit of this stranger, for him whose capital, plant, farm and industry are in a foreign conutry and who is not and cannot be a facter of our own national wealth. The Canadian manufacturer, farmer or mechanic had to pay at the border a tax equivalent, so far as could be computed, to the full cost of the privileges our market offered him. It is very much like a city which

builds sidewalks, grades streets, puts in waterworks, fire systems, builds and maintains schools, creets churches and does all those things which make life pleasant and agreeable. Of course these things cost money, and to meet these expeuses taxes are laid on land, houses,

mercantile establishments, etc. What would we think of the political economy which would allow peddlers to go from house to house and sell every article of household need and luxury without let, hindrance, tax or liceuse? They would drive over streets paved by the money of their competitors free of any tax. They would return nothing to the municipality which allowed them to ply their avocation. They would not be residents, but carry away to another place the money they received for their goods. They might not even eat a meal or spend the cost of a night's lodging there. Surely this would not be justice. Certainly no town could thrive which did not, in fair measure, protect her own taxpayers. Nor can it be argued that these peddlers should go free of tax or license to prevent robbery or extortion by the local merchants. That, as an argument, is used by Democrats, but when analyzed its absurdity is shown at a glunce. Competition never fails to bring down prices-there are merchants enough and more are ever ready to come where purchasers are to be found, so us to make a reasonable price to consumers.

What Protection Is Like.

Protection is like a good book; once in your hands you want to hold on to it. Protection is to workingmen what flowers are to bees; it cualdes them to store away the fruits of their labor for

once you have it in your possession you do not like to part with it. For American Farmers To Think About,

There are few classes of workmen who in many respects are so thoroughly wretched as the English agricultural laborers. They are in many respects so miserably poor that, if they were converted into slaves tomorrow, it would be to the interest of their owners to feed them far better than they are at present. Throughout large ugricultural districts not a single agricultural laborer will be found who has saved so much as a week's wages. A life of toiling and incessant industry offers no other prospect than a miserable old age. - Henry Faw-

Free Trade In Great Britain.

In the city of Glasgow alone 41,000 out of every 100,000 live in homes having only one room, and, further, nearly one-third of the whole people dwell in homes of only one room, and more than two-thirds of the people of Scotland dwell in homes of not more than two
